

MultiGiant front loader

A large 20" notebook case in the 'multi' range.

The MultiGiant is the largest notebook case available in the classic multi range, allowing notebooks up to 20" to be easily stored and safely protected.

The effective yet light weight protective padding made of High Density Foam surrounds the notebook on all sides providing ultimate protection from bumps and knocks. The notebook compartment is lockable, and movement in transit is minimised by the notebook strap.

Mobile phone, business cards, and documents are stashed in the front compartment within easy reach. The integrated workstation with its extendable CD compartment offers space for mobile equipment (CDs, PDAs, etc) whilst the power supply and cables find space in the cable bag included.

The extra soft and specially designed handle ensures pleasant transportation, which is made even more comfortable by the inclusion of a shoulder strap and trolley-fastening strap.
